

**“Promoting Our Strengths” Workgroup  
Meeting Notes  
Gogebic Community College  
February 9, 2010  
6:00 PM**

**Present**

Will Andresen, Lou Bonagaro, John Garske, Leann Garske, Lisa Heberling, Denise Stephens, Mark Stephens

**Web-site Development**

The group reviewed the draft narrative content and links provided by the web-site designers. The over-all design and appearance was approved, although there were several technical changes made. These changes will be brought back to the designers for web-site updates. In addition, each work-group member volunteered to review one page of the site to test for active links and correct links, to add additional links or information not included and to conduct a quality control check.

These changes should be returned to Will by noon on Friday, February 12<sup>th</sup> and forwarded to the designers by the end of the day.

The project is still on schedule for a February 17<sup>th</sup> launch. After the web-site is completed and the bumper stickers obtained, all four work-groups will be brought back together for a “big group” update.

**Next Meeting**

No meeting was scheduled until after the “big-group” update meeting. Work-group projects in the future will include developing and distributing marketing materials to promote the new web-site.
